

Briefing Notice

Join us for a briefing on the findings of the
2020 Sustainable Energy in America Factbook

Get the Latest Facts About U.S. Energy Markets and Deployment Trends

Thursday, February 20, 2020
12 PM – 1:30 PM

Lunch will be served

Room 2325 Rayburn House Office Building

Please RSVP to expedite check-in: www.eesi.org/022020factbook#rsvp

Live webcast (connection permitting) will be streamed at: www.eesi.org/livecast

Hosted in coordination with:

House and Senate Renewable Energy & Energy Efficiency Caucuses

Sponsored by:

Business Council for Sustainable Energy and Environmental and Energy Study Institute

The eighth edition of the *Sustainable Energy in America Factbook*, published in partnership by **BloombergNEF (BNEF)** and the **Business Council for Sustainable Energy (BCSE)**, will be released on February 13, 2020, and available to download at www.bcse.org/factbook. The *Factbook* provides updates on industry information and trends for the U.S. energy economy, with an in-depth look at the energy efficiency, natural gas, and renewable energy sectors, as well as emerging areas such as digitalization, micro-grids, offshore wind, hydrogen, and renewable natural gas.

Speakers will include:

- **Lisa Jacobson**, President, Business Council for Sustainable Energy
- **Ethan Zindler**, Head of Americas, BloombergNEF
- **Ruth McCormick, Moderator**, Director, Federal and State Policy, BCSE
- **Emily Duncan**, Director of Federal Government Affairs, National Grid
- **Shaun Garrison**, Director, Congressional Affairs, Government Relations, Solar Energy Industries Association
- **Charles Hernick**, Director of Policy and Advocacy, Citizens for Responsible Energy Solutions (CRES) Forum
- **Devin McMackin**, Senior Policy Advisor, ITC Holdings Corp.

This year's *Factbook* will provide a first-of-its-kind overview of the major changes of the past decade in U.S. energy generation, delivery, and consumption, as well as 2019 year-on-year trends. Find out answers to the following questions, and more:

- How is the U.S. energy mix changing?
- How can clean energy make our infrastructure more resilient?
- What is the impact of policy developments on the market in 2019 including tax and trade issues, fuel economy standard updates and state and local government climate actions?

This event is free and open to the public.
